

# Tip the equation

## HPE Small Business Solutions for Multi-function with ClearOS

Add everything up to success with a single server that can run multiple business-critical functions

### Great for:

- **Small and midsize businesses** with a powerful and affordable solution for running multiple workloads
- **Remote and branch offices** with a powerful and affordable solution that can keep pace with the corporate office
- **Industries** like healthcare, retail, finance/insurance, automotive, non-profits, and travel agencies

### It's basic math.

These days, everyone has a powerful computer at their fingertips. But you don't need to consult a calculator to figure out that lowering costs and increasing productivity drive success and competitive ability.

If you're finding that laptops, PCs, or aging servers can't keep pace with your growing workforce—and a growing number of applications—with the performance and security you need, it's time to adopt or upgrade to a multi-function server.

In general terms, a server makes it easy for employees to share and collaborate with

a secure, central repository for important files. HPE Small Business Solutions for Multi-function with ClearOS™ adds to the convenience and security; a single HPE ProLiant server running ClearOS can also provide multiple gateway, network, and cloud functions.

### Increase productivity while reducing complexity and costs

With this comprehensive converged appliance for business systems performing multiple IT functions, you can consolidate hardware and software components from multiple vendors into a single affordable system to improve employee collaboration, reduce IT costs, and do more with less.

## Build your best solution

HPE Small Business Solutions for Multi-function with ClearOS can be built with any ClearOS Marketplace apps<sup>1</sup> to form combinations such as unified threat management (UTM) with storage and backup, storage and backup with collaboration apps, UTM with PCI and HIPAA compliance reporting, UTM with email, and many more.

- **UTM** with apps like **Web Content Filtering System**, **Linux® Firewall**, **Antimalware Rules**, **Gateway Antiphishing**, **Gateway Antivirus**, **Intrusion Detection System**, and **Intrusion Prevention System**
- **Storage and backup** with apps like **Remote Data Backup**, **BackupPC**, **Flexshare**, **Plex Media Server**, and **ownCloud for Business**
- **Multiple other business functions** like databases, PCI and HIPAA compliance reporting, web services, email, collaboration apps, and much more. Visit the **ClearOS Marketplace** to explore your options

<sup>1</sup> ClearOS Marketplace apps are optional and may be fee based. Refer to the **ClearOS Marketplace** for details.

<sup>2</sup> Depending on the model.

<sup>3, 7</sup> HPE case study, "**Business model in a box**," September 2017.

<sup>4</sup> Based on external firm conducting cybersecurity penetration testing of a range of server products from a range of manufacturers, May 2017.

<sup>5</sup> HPE SMB Offers are regionally released as "Smart Buy Express Offers" in the U.S. and Canada, "Top Value Offers" in Europe, and "Intelligent Buy Offers" in Asia Pacific and Japan.

<sup>6</sup> Support for ClearOS and ClearVM™ is provided by ClearCenter™.

ClearOS has already **delivered patches to overcome the Spectre and Meltdown issues**.

- **Affordability**—Low-cost HPE SMB Offers make **Hybrid IT** easy to consume.<sup>5</sup> ClearOS is a cost-effective alternative to purchasing individual server, network, and gateway components.<sup>6</sup> Plus, there are no upfront costs for the OS—pay just for the apps and subscription services you need. Together, HPE ProLiant Gen10 servers with ClearOS deliver up to 50% lower total cost of ownership.<sup>7</sup> And HPE Subscription is a flexible option that packages hardware, software, accessories, and services into a predictable monthly payment.

## HPE Pointnext

**HPE Pointnext** has the expertise and experience to help you simplify operations and easily extend your IT staff, helping them do more with less. Services from HPE Pointnext help you innovate to keep ahead of risks like competitive and security threats. A variety of offerings—from advising on best practices and project-based engagements, to operational support services—keeps your environment running efficiently and reliably.

## Better together

HPE ProLiant and ClearOS deliver:

- **Simplicity**—HPE SMB Offers are preconfigured HPE ProLiant ML and DL servers, optimized for the included ClearOS, making them easy to deploy.<sup>2</sup> Ease of use provided by HPE ProLiant Gen10 automation and the intuitive, web-based ClearOS user interface result in 6X faster deployment.<sup>3</sup> And ClearOS integrates with existing IT, including Microsoft® Windows®.
- **Security**—**HPE ProLiant Gen10 servers**, powered by Intel® Xeon® processors, are the most secure industry standard servers,<sup>4</sup> and ClearOS offers proven security apps and functions such as automatic updates, group policies, and Active Directory integration.

## Choose your best option

With your choice of HPE ProLiant tower or rack servers with ClearOS, you get the power, simplicity, and affordability to handle multiple server functions with configurations that are just right for 1–250+ employees. Contact HPE or your authorized Channel Partner to learn more, today.
