Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
Device or Dev	means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
E-LTU and E-Media	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Internal Use	means access and Use of the software for purposes of supporting your internal operations or functions.
LTU	means License To Use.
Use	means to install, store, load, execute and display one copy of the software.

Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

HPE CentralView Fraud Risk Management

HPE CentralView Fraud Risk Management can be licensed either by number of entities (e.g. subscribers of the operator) or events (xDR) for which usage is being tracked where an event represents a single record fed into the system that will be either analyzed or archived by the fraud system. Licenses are purchased in blocks of 50K entities or block of 350k events/day.

A carrier orders the number of needed license "blocks". Additional license blocks can be purchased over time as the carrier grows to cover the new subscribers. A full Tier license must be ordered before any higher Tier can be ordered.

TIER	NUMBER OF ENTITIES	NUMBER OF EVENTS/DAY
1	up to 1Million subscribers 20 blocks	up to 7M events/day 20 blocks
2	from 1 million to 4 million 60 blocks	from 7M to 28M daily events 60 blocks
3	from 4 million to 10 million 120 blocks	from 28M to 70M daily events 120 blocks
4	After 10 million	after 70M

The license includes embedded software licenses for IBM SPSS and HPE eIUM that are restricted to CentralView product only.

Licensee may use the license for one Dev/Test or for Standby nodes for high availability without any additional fee.

HPE CentralView Embedded Platform

Database management system license can be optionally purchased as embedded in CentralView products.

Database management system license is restricted to HPE's CentralView product only.

It is licensed by the number of CPU Cores. A specific license is required for Dev/Test which may require an additional license fee.

Licensee may use the license for Standby nodes without any additional fee subject to the following limitations:

- i. The Standby node will be used less than 10 days and less than ten times in a calendar year;
- ii. Database instances have to be dismantled in the Standby node.

Additional license terms

TERM

- A.** Software contains the following software and associated specifications licensed from third parties:
- IBM SPSS
 - SAP BOBJ
 - Oracle Database
- The above software and specifications are confidential to, and trade secrets of, such parties
You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties.
-
- B.** You shall install and use the IBM SPSS, SAP BOBJ and Oracle Database Software as authorized in the applicable agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
-
- C.** You may only access the IBM SPSS Software through HPE FRM Software. You may not use third-party or IBM tools to access the IBM SPSS Software.
