

Cloud adoption for financial services

Join some of the world's largest financial institutions already running on AWS.

“Natixis engaged Cloud Technology Partners, a Hewlett Packard Enterprise company, based on their expertise in building stable and scalable cloud infrastructure on AWS. Their end-to-end approach to cloud adoption, spanning strategy to production operations, combined with their experience of financial services firms, gave us the confidence we needed to move our business line to the cloud.”

— George Marootian, EVP, Head of Technology, Natixis

Realize the full benefits of secure cloud adoption and migration for your organization. Get started with the cloud adoption program for financial services firms.

Based on best practices from hundreds of successful engagements, the cloud adoption program for financial services brings together leading technologies, implementation services, and methodologies to securely accelerate cloud adoption on AWS.

The cloud adoption program helps your organization to:

- Improve agility and speed to market to drive top-line revenue through innovation
- Decrease costs related to infrastructure management usage
- Increase developer productivity and satisfaction
- Provide faster insights through cloud-native analytics and Big Data capabilities

Gaining the benefits of cloud in the financial services industry requires successfully navigating a highly complex technical and regulatory environment. The cloud adoption program addresses these challenges, including:

- **Data security**—Overcome fear, uncertainty, and doubt
- **Risk and compliance**—Improve regulatory, audit, and legal postures
- **Industry standards**—Understand cloud security alliance (CSA), ISO 270xx, NIST
- **Governance**—Provide nearly continuous governance and management
- **Value proposition**—Clarify the economic and business case
- **Change management**—Leverage proven tools and management models

Five phases of the cloud adoption program

We work with the world's leading financial institutions to solve their unique security, governance, and regulatory concerns when moving to the cloud. The cloud adoption program provides a clear, safe, and secure path for end-to-end cloud adoption. The 5-phased approach begins with a workshop to align your team around a common cloud vision.
