### Notes

TBD means “to be determined”

“Yes” means “This version of HP-UX 11i supports the designated server”

HP-UX 11i v2 and v3 supports only the 64-bit version of the HP-UX kernel

N/A means “not applicable”

<sup>1</sup> Final planned Quality Pack (QPK) provided for HP-UX 11i v1 at this time.

<sup>2</sup> Final planned QPK provided for HP-UX 11i v2 at this time.

<sup>3</sup> Previous Version Support with Sustaining Engineering (PVS w SE) is offered for HP-UX 11i v1 and 11i v2 for the period 01-Jan-14 to 31-Dec-15. Previous Version Support without Sustaining Engineering (PVS w/o SE) will be offered for HP-UX 11i v1 and 11i v2 for the period 01-Jan-16 through at least 31-Dec-2022.

<sup>4</sup> HP-UX 11i v3 will be under Standard Support through at least December 31, 2025. Mature Product Support without sustaining engineering for HP-UX 11i v3 will start after Standard Support ends and will be offered for a minimum of 3 years.

<sup>5</sup> Please contact your local HPE support representative for detailed information on end of server support dates.

<sup>6</sup> BL8x0c i4 and BL8x0c i6 share the same server product number, however distinguished separately by Intel Itanium processor 9500 or 9700 series.

<sup>7</sup> Since HP-UX 11.0 is the first to support 64 bits, prior versions are 32-bit only.

<sup>8</sup> 32 and 64 means a 64-bit PA8x00-based system can run either 32- or 64-bit versions of HP-UX 11.x and 32- and 64-bit applications.

<sup>9</sup> 64 means runs on 64-bit PA8x00 systems only, but can run 32- and 64-bit applications.

\* Products sold prior to the November 1, 2015 separation of Hewlett-Packard Company into Hewlett Packard Enterprise Company and HP Inc. may have older product names and model numbers that differ from current models.
