# **Export of Electronic Waste to Developing Countries Policy**

Hewlett Packard Enterprise does not allow e-waste to be exported from developed countries (Organization for Economic Co-Operation and Development and European Union) to developing countries (non-OECD countries outside the EU), either directly or through intermediaries.

HPE defines e-waste as nonworking parts or devices; this does not include:

- Materials defined as nonhazardous under the Basel Convention;
- Working equipment and parts that are not intended for disposal or recycling, but are for donation, reuse or resale;
- Components being returned to the original equipment manufacturer that are under warranty; and
- Materials to be used in manufacturing that do not require further processing or preparation.
