

Overview

Zerto

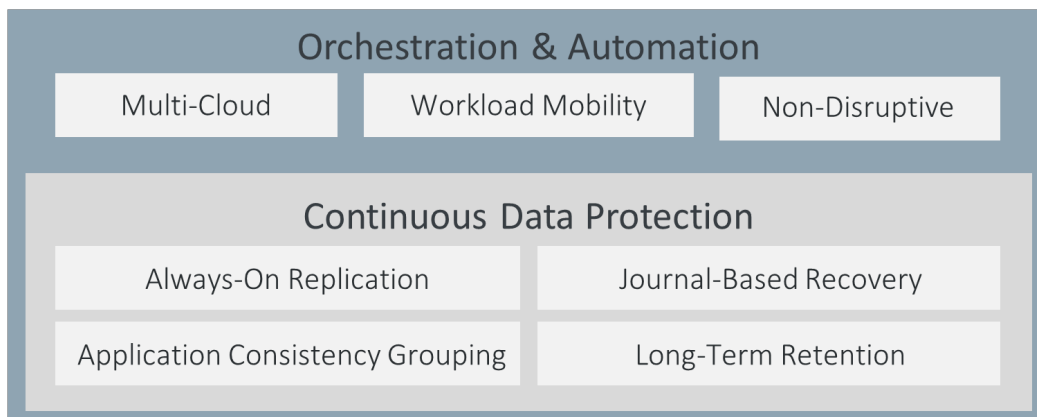

The Zerto IT Resilience Platform™ via the HPE Complete program, converges disaster recovery, backup, and workload mobility whether on-premises or to, from and between hybrid and multi-cloud environments. It's focused on delivering an uninterrupted customer experience while reducing the tools and complexity of your datacenter.

Zerto helps over 8,000 customers accelerate IT transformation by reducing the risk and complexity of modernization and cloud adoption. By replacing multiple legacy solutions with a single platform, Zerto is changing the way disaster recovery, data protection and cloud are managed. With enterprise scale, Zerto's software platform delivers continuous availability for an always-on customer experience while simplifying workload mobility to protect, recover and move applications freely across hybrid and multi-clouds.

Zerto enables alignment across IT strategies with hypervisor-based replication, allowing organizations to fully realize the benefits of virtualization. Zerto moves replication from the array or host, up to the hypervisor, providing flexibility, better asset utilization and reduced operational and maintenance costs – all reasons to virtualize in the first place, reducing overall TCO.

Zerto IT Resilience Platform

Zerto Analytics and Control

Overview

Key Features:

Continuous Availability - Keep all of your applications running 24/7 no matter what.

- Continuous Data Protection - Continuously capture and track data modifications so you can restore back to any point in time with remarkable granularity.
- Always-on Replication - Say goodbye to periodic backups and snapshots. Deliver the tightest RTOs and RPOs with near-synchronous replication.
- Journal-Based Recovery - Every change made is automatically written into a journal with a granularity of seconds, so you can rewind to a point in time immediately before an incident.
- Application Consistency - Protect your key business services and applications including all their dependencies as a cohesive, logical entity.
- Short- and Long-Term Retention - Recover entire virtualized datacenters or a single file, whether seconds ago or years ago.

Orchestration and Automation - Faster management of workloads at scale with minimal touch—shift resource to focus on greater innovation and efficiency.

- Hybrid and Multi-Cloud - Protect and migrate workloads to, from and between clouds without production impact for Azure, AWS, and more.
- Non-Disruptive Testing - Validate recoverability, perform a migration dry-run, or test against production replicas, all with no production or protection impact.
- Flexible REST APIs - Fully automate deployment and VM protection using ready-made examples.
- Workload Mobility - Create seamless recovery, consolidation, and migration experiences in four easy clicks.

Analytics - Gain unparalleled insights across clouds or disparate infrastructures to make data-driven decisions.

- Real-time and Historical Analysis - Monitor the health and protection status of your applications with real-time and 90-day historical analysis.
- Compliance Reporting - Pass audits and stay in compliance with built-in reporting and hassle-free testing.
- Unrivaled Visibility - Maintain visibility across your multi-site, multi-cloud environment without extra software to install or maintain.
- Intelligent Dashboards and Reports - Responsively troubleshoot and proactively plan with storage, network, and multi-site performance data.

Zerto is available in the HPE Catalog via HPE Complete program.

HPE Complete is a resource enabling the purchase of best in class third party branded products with the added reliability of Hewlett Packard Enterprise's interop assurance for a complete validated solution, all via one HPE purchase order.

Benefits

- One Stop Shop - Purchase complete solutions from HPE that include best in class third party branded products, all on a single HPE purchase order
- Validated solution - Confidence of The HPE interop assurance validation for third party branded products that complement HPE Storage and Server solutions
- Customer Experience - HPE Complete utilizes third-party expertise for installation, support, and warranty of their products. However, HPE Complete will step in to facilitate third-party issue resolution when needed to assist in overall customer satisfaction. HPE products that are part of the overall solution are supported per HPE Pointnext services and support purchased.
- Unique Value - Minimize risk, complexity and cost when deploying multi-vendor products and technologies into the HPE ecosystem. Many solutions come with custom HPE/Partner configuration and integration guides and tools.

For more information please refer to [HPE Complete](#) on HPE.com

Overview

Models

Hewlett Packard Enterprise is making the following Zerto SKUs available via HPE Complete:

Description

SKU

Zerto Enterprise Cloud Edition

Zerto Virtual Enterprise Cloud Edition 1 VM E-LTU	R6J72AAE
Zerto Virtual Enterprise Cloud Edition 25 VM E-LTU	R6J45AAE
Zerto Virtual Enterprise Cloud Edition 100 VM E-LTU	R6J46AAE
Zerto Virtual Enterprise Cloud Edition 250 VM E-LTU	R6J47AAE
Zerto Virtual Enterprise Cloud Edition 500 VM E-LTU	R6J48AAE
Zerto Virtual Enterprise Cloud Edition 1000 VM E-LTU	R6J49AAE

Zerto Standard Installation up to 8h Remote Service	R6J78AAE
Zerto Advanced Installation up to 24h Remote Service	R6J79AAE
Zerto Expanded Installation up to 16h Remote Service	R6J80AAE

Standard Features

Continuous Data Protection

- **Continuous Data Replication** – Zerto delivers recovery point objectives (RPOs) of seconds by replicating every change that is generated in near real-time. Performed at the platform level, this enables continuous capability by removing any production impact.
- **Journal-Based Recovery** – All replicated changes are stored in a journal for up to 30 days providing incredible recovery granularity through checkpoints inserted every few seconds. This reduces data loss to just seconds by enabling recovery of files, VMs, applications or entire sites, either to the latest point-in-time or, for example, when the virtual machine (VM) is attacked by a virus or ransomware, to a point-in-time before the attack.
- **Application Consistency** – Today's applications are rarely run on a single VM, but instead most applications have multiple VM dependencies. Traditional methods of protecting VMs individually result in significant challenges to recovering complete applications quickly. Zerto resolves this by using our Virtual Protection Group (VPG) capability. VPGs allow you to protect multiple VMs together in a consistent fashion, ensuring every point in time that is inserted into the Zerto Journal is from the same point in time for all VMs within the VPG. This allows consistent recovery of an entire application, and all its VM dependencies, to a consistent point in time.
- **Long-Term Retention** – Compliance standards often require you to keep, and ultimately recover data, for longer than 30-days. Long-term retention utilizes your existing journal to store data from any point in time for days, weeks, months or even years with no production impact.
- **Scalability** – Zerto simplifies scaling the infrastructure to support disaster recovery. As a new virtual host is added, simply install a new virtual appliance. Although Zerto scales to support very large environments, it provides the same granularity for environments of all sizes, with the same capabilities and no production impact.

Orchestration and Automation - Built in orchestration and automation enables faster management of workloads at scale with minimal touch, allowing IT resources to shift their focus toward innovation and services that help your business run more efficiently.

- Zerto's platform supports organizations' multi-cloud and hybrid cloud strategy, including VMware, Hyper-V, Azure, IBM Cloud, AWS and hundreds of Cloud Service Providers (CSPs).
- All recovery settings are configured up-front, such as boot order and re-IP failover, well before any disaster or other event occurs, thus greatly simplifying the recovery process. In fact, it's so simple, any IT team member could perform it in just 3 clicks.
- You can configure different settings for test failovers, ensuring that test failovers/moves can be run at any time with zero impact on production or protection.

Analytics and Control - Zerto Analytics, included in the IT Resilience Platform, provides one single, comprehensive view of an entire multi-site, multi-cloud environment. Built-in intelligent dashboards provide real-time and historical analysis of the health and protection status of your applications and data. Metrics such as average RPO, network performance, and storage consumption, help you spot trends, identify anomalies, and troubleshoot issues. The powerful resource planning capability continuously monitors and analyses compute, storage and network resources across on-premises environments and public, private and hybrid clouds to give confidence to resource requirement needs. 'What-if' scenario modelling delivers accurate planning of future storage, compute and network resources. Zerto Analytics helps you make better informed decisions and plans, to achieve an efficient, IT resilient mode of operation.

Standard Features

Government Compliance – With the Enterprise Government Edition, Zerto takes the best innovations and development from its IT Resilience Platform and stabilizes it for federal government and public sector missions. Our products are built to help you become more efficient, meet critical IT demands, and seamlessly complete accreditation and certification processes. Zerto solutions are used throughout the federal government including DOD, Civilian and Intel. We are helping our federal customers migrate, replicate and protect mission critical workloads to, from and in-between private and public cloud environments while maintaining compliance. The Federal Risk and Authorization Management Program (FedRAMP) is a government-wide program that provides a standardized approach to security assessment, authorization, and continuous monitoring for cloud products and services. Zerto's IT Resilience Platform enables federal agencies, our CSPs and System Integrators to comply and adhere to the 325+ controls within the NIST framework. National Institute of Standards and Technology.

Licensing Guide and SKUs

Zerto is priced per protected VM and offers convenient options to purchase in volume-based license packs or on a per VM basis.

Maintenance and support is required for all licenses. Premium support is standard, which provides 24x7 access to a dedicated support specialist, or standard which provides 9 am - 5 pm phone and email support. Additionally multi-year discounting is available for customers looking for more than a single year term. Please refer to the full Support Services guide for complete terms.

Service and Support

Service and Support for Zerto products are provided directly by Zerto.

Opening a Support Case

- Directly through the Zerto Virtual Replication Graphical User interface
- Open a Support case through the Self-Service Portal at <https://www.zerto.com/myzerto/support/>
- Call the Zerto Support Line
 - US/Canada: +1-866-271-3145
 - UK: +44-800-088-5495
 - Australia: +61-1800-466-227
 - Germany: +49-32221090005
 - China: +86-400-120-8535
 - For a full list of numbers available locally, please visit:
<http://www.zerto.com/myzerto/support/support-options/>

Self-Service on myZerto

- Simply go to <http://www.zerto.com/myzerto>

The myZerto portal is the hub for all things Zerto. Via myZerto, Support cases may be opened/monitored and users added or removed. MyZerto is the authoritative source for all Zerto technical documentation and knowledge base articles, as well as self-paced online training and verified Zerto Virtual Replication Release product downloads.

Case Escalation Guidelines

Option 1: Call the Zerto Support line directly to speak in real time with a Customer Support Representative.

Option 2: Email support@zerto.com and CC your Zerto Account Team members to receive a response within 30 minutes.

In your conversation or email, please be prepared to discuss the following:

- Case number
- Reason for escalation
- Detailed symptom and problem you are experiencing

Zerto Licensors' service delivery organizations are responsible for responding to and assigning severity levels to calls and determining the service Severity Level acceptable to the Hewlett Packard Enterprise customer.

Service and Support

Warranty

Software

Zerto software purchases include a 30-day manufacture defect warranty

Restrictions

Zerto warranties as set forth herein (“Warranty”) are contingent on proper use of the Zerto branded hardware and software (“Products”) and do not apply if (a) the Products have been modified without the written approval of Zerto, (b) the Products' serial number label is removed, (c) the Product has been damaged or subjected to abnormal physical or electrical stress, abnormal environmental conditions, misuse, negligence, or accident, or (d) the Product is licensed for beta, evaluation, testing or demonstration purposes. The terms of the Warranty are limited to the remedies as set forth in this Warranty. This warranty is provided in lieu of all other rights, conditions and warranties. Zerto makes no other express or implied warranty with respect to the software, hardware, products, documentation or Zerto support, including, without limitation, any warranty of merchantability, fitness for a particular purpose and non-infringement of third party rights. Zerto does not warrant that any products will be error-free, or that any defects that may exist in its products can be corrected. In no event shall Zerto be liable for cost of procurement of substitute goods, lost profits or any other special, indirect, consequential or incidental damages (including but not limited to lost data), however caused whether or not Zerto has been advised of the possibility of such damages. Some jurisdictions do not allow limitation or exclusion of liability for consequential or incidental damages, so that limitation or exclusion may not apply.

Return Policy for Resellers

Stocking of Zerto products are not recommended. Please purchase accurate quantity required to fulfil the customer order.

Configuration Information

Zerto Software via HPE Complete configurations are as follows:

Choose License type that fits the deployed environment from these listed:

- Zerto Virtual Enterprise Cloud and Enterprise Government Edition (steps 1a, 1b and 1c)
- Zerto Virtual Replication (steps 2 and 2a)
- Zerto Upgrade Licenses to move from one Zerto Platform to another (step 3)
- Zerto Installation Service - optional (step 4)

Ordering Guidelines

A license is required for every protected VM in the enterprise.

Enterprise Government Edition is available to users who need to ensure their environment is are compliant with the Federal Risk and Authorization Management Program (FedRAMP).

For perpetual licenses, minimum one year of maintenance is required with the initial order. Additional years of maintenance can be ordered up to 5 years (multiply the license chosen by the number of years desired up to 5). For Enterprise Government Edition the SKU must be multiplied by the number of VMs (only 1 VM offered, no packs are offered) and select the Maintenance which matches the number of years desired.

Enterprise Cloud Edition (ECE) and Enterprise Government Edition (EGE) licenses are perpetual (need to order maintenance) or subscription (maintenance included),
Zerto Virtual Replication (ZVR) licenses are perpetual and should be ordered with maintenance.

Choose License and maintenance as required for the number of VMs in the enterprise.

Step-1

Step-1a

Select License Perpetual Zerto Virtual Enterprise Cloud Edition or Enterprise Government Edition (EGE)

Notes: Zerto Virtual Enterprise Cloud Edition Software, select based on the number of VMs to be protected. Note that Maintenance, step 1b, is required

Description

	SKU
Zerto Virtual Enterprise Cloud Edition 1 VM E-LTU	R6J72AAE
Zerto Virtual Enterprise Cloud Edition 25 VM E-LTU	R6J45AAE
Zerto Virtual Enterprise Cloud Edition 100 VM E-LTU	R6J46AAE
Zerto Virtual Enterprise Cloud Edition 250 VM E-LTU	R6J47AAE
Zerto Virtual Enterprise Cloud Edition 500 VM E-LTU	R6J48AAE
Zerto Virtual Enterprise Cloud Edition 1000 VM E-LTU	R6J49AAE
Zerto Virtual Enterprise Cloud Edition 2500 VM E-LTU	R6J50AAE
Zerto Enterprise Government Edition 1 VM Perpetual E-LTU	R6K02AAE

Step-1b

Select Virtual Enterprise Cloud Maintenance SKUs

Notes:

- Zerto Enterprise Cloud Edition Premium Maintenance for 12 months term, select based on the number of VMs to be protected, choose multiples of these SKUs to match the number of years desired (1-5 years).
- Zerto Enterprise Government Edition Premium Maintenance is for the term (1, 3 or 5 year) listed, select based on term desired

Zerto Virtual Enterprise Cloud Edition 1 VM 1yr Premium Maintenance	R6J73AAE
Zerto Virtual Enterprise Cloud Edition 25 VM 1yr Premium Maintenance	R6J58AAE

Configuration Information

Zerto Virtual Enterprise Cloud Edition 100 VM 1yr Premium Maintenance	R6J59AAE
Zerto Virtual Enterprise Cloud Edition 250 VM 1yr Premium Maintenance	R6J60AAE
Zerto Virtual Enterprise Cloud Edition 500 VM 1yr Premium Maintenance	R6J61AAE
Zerto Virtual Enterprise Cloud Edition 1000 VM 1yr Premium Maintenance	R6J62AAE
Zerto Virtual Enterprise Cloud Edition 2500 VM 1yr Premium Maintenance	R6J63AAE
Zerto Enterprise Government Edition 1 VM 1yr 24x7 Premium Maintenance	R6K03AAE
Zerto Enterprise Government Edition 1 VM 3yr 24x7 Premium Maintenance	R6K04AAE
Zerto Enterprise Government Edition 1 VM 5yr 24x7 Premium Maintenance	R6K05AAE

Step-1c

Select Virtual Enterprise Cloud Subscription SKUs

Notes:

- Zerto Enterprise Cloud Edition Subscription SKUs come with Premium Maintenance, select based on the number of VMs to be protected and number of years desired (3 or 5 years)
- Zerto Enterprise Government Edition Subscription multiply the number SKUs by the number VMs and number of years desired

Description

Description	SKU

Zerto Enterprise Cloud Edition to Enterprise Government Edition Upgrade 1 VM E-LTU	R6K07AAE
Zerto Enterprise Cloud Edition to Enterprise Government Edition Upgrade 1 VM 1yr Premium Maintenance	R6K08AAE

Step 4

Select Zerto Installation Services

Zerto Standard Installation up to 8h Remote Service	R6J78AAE
Notes: Zerto Expanded Install Service: Up to 8 hours to remotely implement up to 50 VMs, 2 ZVMs, 10 VPGs, 15 VRAs.	
Zerto Advanced Installation up to 24h Remote Service	R6J79AAE
Notes: Zerto Expanded Install Service: Up to 16 hours to remotely implement up to 100 VMs, 3 ZVMs, 12 VPGs, 20 VRAs.	
Zerto Expanded Installation up to 16h Remote Service	R6J80AAE
Notes: Zerto Expanded Install Service: Up to 24 hours to remotely implement up to 150 VMs, 4 ZVMs, 15 VPGs, 30 VRAs.	

Summary of Changes

Date	Version History	Action	Description of Change
06-Jul-2020	Version 8	Changed	Updated the product messaging and re-numbered all SKUs offered
02-Mar-2020	Version 7	Changed	Added the Enterprise Government Edition SKUs
04-Nov-2019	Version 6	Changed	Updated the SKUs offered through HPE (Zerto Enterprise Cloud Edition subscriptions)
10-Jun-2019	Version 5	Changed	Configuration Information section and Configuration Information Sections were updated
04-Feb-2019	Version 4	Changed	Updated messaging content to align with Zerto 6.5 release Overview, Features and Benefits, Configuration Information and Service and Support sections were updated.
05-Feb-2018	Version 3	Changed	Added 16hr installation SKU. Overview and Configuration Information were revised.
25-Sep-2017	Version 2	Changed	Changes made throughout the QuickSpecs.
05-Jun-2017	Version 1	New	New QuickSpecs
