

# **HPE and Baldwin Hackett & Meeks**

## **HPE NonStop Systems & BHMI Concourse Financial Software Suite**

Working together. Accelerating results.

### **A new style of partnering**

Hewlett Packard Enterprise and Baldwin Hackett & Meeks, Inc. (BHMI) are collaborating in a fresh new way to bring increased value to customers like you.

We know that acquiring technology is only the first step in achieving a business goal. The technology pieces need to work together. They need to be tested. They need to provide rich functionality, quickly and effectively, so you can concentrate on your business needs.

To help satisfy these needs, BHMI is a member of the HPE Partner Ready for Technology Partner program, an industry-leading approach to supply sophisticated integrated technologies in a simple, confident, and efficient manner.

BHMI has access to the right tools, processes, and resources to help our joint customers accelerate innovation and transformation that brings value, achieves business needs, and increases revenue and market share.

### **Product overviews**

**BHMI Concourse Financial Software Suite:** The Concourse Financial Software Suite is a proven and modular software suite specifically designed to reduce the cost and complexity of back office processing for electronic payment transactions. Concourse supports both issuer and acquirer activity for any type of electronic transaction. This includes credit card, debit card, ATM, POS, mobile, and P2P transactions.

Concourse includes five software modules that perform a wide range of back office functions that are required to successfully process electronic payment transactions. This includes real-time access to transaction data, transaction research, settlement processing, funds movement, transaction matching, automated reconciliation, reporting, fee billing, chargebacks and disputes workflow management.

The software modules within Concourse include the following:

- Concourse – Core
- Concourse – Extended Settlement
- Concourse – Reconciliation
- Concourse – Fees & Commissions
- Concourse – Disputes

The modules within the Concourse Financial Software Suite can be licensed separately or as a unified set to meet a company's specific back office processing needs for electronic payments.

**HPE NonStop: For business that never**

**stops:** HPE Integrity NonStop was designed from Day One with built-in clustering and workload balancing to enable withstanding single points of failure so applications continue as if no failure occurred. That means no disruption of work, no impact on customers, and no degradation in performance. For almost four decades, the HPE Integrity NonStop architecture remains the ideal choice when there is a need for reliable uninterrupted availability—in compute environments that serve mission critical businesses.

NonStop scales up to 16 NonStop CPUs and 6 cores per CPU within a single node, each running its own copy of the NonStop OS, and scales out to 4,080 NonStop CPUs on 255 networked nodes or 24,480 cores.

NonStop comes with a built-in transactions management framework that ensures full

data integrity. Support for modern languages, interfaces and Eclipse based environment makes applications development faster, easier, and more efficient. NonStop also comes with modern security algorithms and encryption technologies.

## Company overview

### About BHMI

Baldwin Hackett & Meeks, Inc. (BHMI) is an elite group of technologists who have been creating primary business applications since 1986. From small startups to Fortune 500 companies, BHMI clients have one thing in common—they trust BHMI to develop software that ensures the successful operation of their businesses. This is because BHMI's core competency is creating enterprise software applications that are continuously available, highly scalable, and undeniably reliable. For more than three decades, BHMI has developed and supported hundreds of applications across a wide range of industries. This includes both custom applications and software products. BHMI leveraged this expertise to create one of the world's most flexible and powerful back office solutions in the electronic payment industry—the Concourse Financial Software Suite.

### About Hewlett Packard Enterprise

Hewlett Packard Enterprise is an industry-leading technology company that enables customers to go further, faster.
