- Business simulations

#### Purchase options

- Credit card or purchase order
- HPE Training Credits—Buy training credits up front and use them as needed
- HPE Support Contract Attach—Purchase training credits as part of your HPE Support Contract

## How are you preparing and supporting your people to be successful throughout the technology change process?

The pace of change in today's idea economy is faster, more challenging, and farther reaching than ever before. To stay competitive, organizations need to change how they operate, serve customers, communicate, and collaborate—and they are using modern technology to get there. Change is everywhere, impacting where, when, and how people work.

All of this change is enabled by mobility, accessibility, and modern hybrid infrastructure. New job categories are being created. Entire functional teams are being asked to pivot to serve their organizations and businesses in new ways, embracing new tools, work processes, and roles. The net impact empowers knowledge workers, who can now work when, where, and how they need to perform their job function with best results to the business. This requires IT teams to keep pace with the demands of their organizations to deliver technology value faster with higher quality and with competitive innovation.

This unprecedented level of change begs a critical question, is your workforce prepared?

## Management of Change consulting services

Hewlett Packard Enterprise understands the importance of the human element with any successful IT-enabled business change and can support you with Management of Change (MoC), a formalized approach to transitioning individuals, teams, and organizations to a desired future state. Our MoC practice is designed to assist companies to achieve the desired business results by proactively preparing and supporting people throughout technology change and minimizing known causes of failed technology adoption. Hewlett Packard Enterprise supports the plans of many global clients and delivers predictable, effective benefits through MoC, including faster adoption of new technology, new processes, and new ways of working and ensuring that the people have the motivation, knowledge, and skills necessary.

## Solution brief

## Technical training courses

Hewlett Packard Enterprise is a market leader in technology training, as recognized by IDC for five years running.<sup>2</sup> With over 35 years of experience, we lead the industry when it comes to modern skills-based IT training and digital on-demand learning. Delivering unmatched expertise across a broad range of HPE products, industry-leading technologies, and IT process disciplines by combining technical knowledge, business insight, and hands-on experience (See Figure 1).

## HPE Digital Learner subscriptions

HPE Digital Learner can assist companies in keeping up with digital skills development by accelerating the digital maturity of their existing workforce, with better access to more effective learning experiences, complete with guided learner paths, incentives, reporting, mentoring, and metrics. HPE Digital Learner subscriptions offer the blended and holistic learning experiences that IT and business professionals need, at a better value.
