Hewlett Packard Enterprise   ::: **Microsoft**

The HPE-Microsoft alliance— Drive success in the digital age

Digitization changes the game. Technology, apps, and data are driving tremendous change. Are you ready?

Discover your digital advantage

The HPE-Microsoft alliance enables the most efficient and effective pathway to:

- **Bridge multicloud** environments
- **Speed data access** and insight
- **Power technology** from the edge to the cloud

> "Value comes from seeing what customers need and delivering it. Digital disruptors will do all of this at lower cost, with faster development times, and with greater impact on the customer experience than anything that came before."
>
> —James McQuivey, Digital Disruption: Unleashing the Next Wave of Innovation

> "Hewlett Packard Enterprise and Microsoft are working together to drive customer success around today's most pressing issues—Hybrid IT, analytics, and more intelligent connections at the edge."
>
> —Antonio Neri, CEO, Hewlett Packard Enterprise

HPE-Microsoft alliance
