

CEJN AB

Composability of HPE Synergy builds in flexibility and frees capital

Objective

To upgrade and hedge future IT needs and opportunities without tying up capital

Approach

Building on a long and successful partnership, HPE Synergy delivers an intelligent upgrade with future potential for the same running cost

Benefits

- Technical simplicity enables easy expansion
- Composable infrastructure delivers vital agility and scalability
- Eased management of infrastructure with single-pane-of-glass view
- Financing through HPE Financial Services creates a stable and predictable cost plan for cutting-edge solutions
- Working with HPE Financial Services provides environmentally sustainable solutions
- Composable HPE Synergy platform futureproofs eventual yet unforeseen needs
