

## Hawksford

“We worked extremely closely with HPE and at the end of the day, HPE Composable Infrastructure, delivered through HPE Synergy and HPE 3PAR, met both our financial and operational criteria.”

– Matthew Wilkinson, director of Global Operations,  
Hawksford

# Hawksford

Headquartered in Jersey, with offices in Singapore, Hong Kong and China, Hawksford offers financial management advice and administers trusts for both private individuals and corporations globally.

## **Challenge: Need to meet growing business demand**

Finding that legacy systems will no longer meet current or future business demands, Hawksford faced a fundamental re-think of how it delivers IT. It needed ever faster and more flexible infrastructures to power transformation and growth; a problem for financial service providers.

## **Solution: New composable infrastructure**

HPE Synergy brings compute, network and storage infrastructures together as a single platform with integrated management of these fluid resource pools, through a single API. The environment is covered by HPE Proactive Care.

## **Results: Basis for growth**

The company is actively looking to grow and believes HPE Synergy will enable it to respond to additional business requirements more rapidly with the capacity to grow in line with demand.
