

Generating Business Value Through IT Agility Using HPE Synergy

IDC's study found that interviewed HPE Synergy customers have made their IT operations significantly more agile and flexible, even as they improve performance and lower costs. By leveraging increased IT agility and automation to support IT and business operations, these organizations will realize value that will translate into more than a 3:1 return on their investment.

Lower 5-year cost of operations

35%

5-year ROI

223%

Total benefits per physical server per year

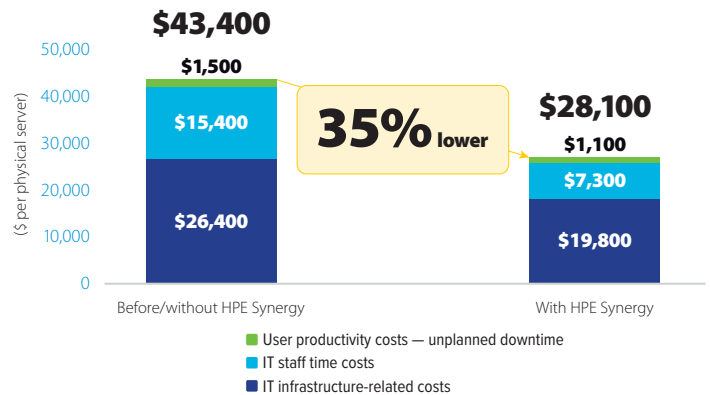

\$13,410

Customer Quote:

"One of our goals is to have the flexibility and multitenancy of public cloud in our private cloud.... Our business requires that we create business units for each project that are essentially segregated, and we do that through multitenancy with HPE Synergy, which saves a lot of costs."
