on a current Hewlett Packard Enterprise services contract and must have registered for Hewlett Packard Enterprise support on the original base product so that upgrade can be added to an existing service contract.

NOTE: Upgrade license service contracts are delta priced between Base product and Target product service contracts. Base product service contracts must remain in place when Upgrade is applied.

- Base + Upgrade product service contract = Target product service contract
- When Upgrade service contract is up for renewal the Upgrade and Base service contracts are renewed at the Target service contract level

NOTE: Upgrade license service terms (1, 3 or 5 years) should match the Base product license service term.

NOTE: Upgrade commercial licenses cannot be sold to upgrade an Academic or Federal base license.

HPE VMware NSX products

NOTE: VMware NSX is the leading network virtualization platform that delivers the operational model of a virtual machine for the network. NSX reproduces the entire network model in software, enabling any network topology to be created and provisioned in seconds. It enables a library of logical networking elements and services, such as logical switches, routers, firewalls, load balancers, VPN, and workload security.

NOTE: NSX can be deployed in a VMware vSphere environment where it is completely integrated with the vSphere, VMware vCloud Director and VMware vCloud Automation Center. NSX can also be deployed in a multi-hypervisor environment, such as Xen Server, KVM or VMware ESXi with a choice of cloud management solution such as vCloud Automation Center, OpenStack and CloudStack.

NOTE: VMware requires Channel Partners to achieve and maintain the “VMware Network Virtualization Competency”. The competency requirements are outlined on vmware.com and [partner central](http://partner.central).

Environment-friendly Products and Approach

End-of-life Management and Recycling

Hewlett Packard Enterprise offers end-of-life Hewlett Packard Enterprise product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: <http://www.hp.com/go/green>. To recycle your product, please go to: <http://www.hp.com/go/green> or contact your nearest Hewlett Packard Enterprise sales office. Products returned to Hewlett Packard Enterprise will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard Enterprise web site at: <http://www.hp.com/go/green>. These instructions may be used by recyclers and other WEEE treatment facilities as well as Hewlett Packard Enterprise OEM customers who integrate and re-sell Hewlett Packard Enterprise equipment.
